REACH compliance

Dear Sir or Madam,

REACH

We confirm that the products we deliver do not contain any of the substances in the current SVHC list with proportions of more than 0.1%.

Potential SVHC – Substances

Our products do not contain any substances from the current list of "potentially particularly worrying substances" (so-called "candidate list" / of 19.01.2021). Our products are also free of radioactive contaminants and do not contain any substances listed in the RoHS directive. Due to the restrictions listed in Annex XVII of REACH VO, certain types of steel, due to their nickel content, may not be suitable for direct and prolonged physical contact (e.g. earrings, piercings, necklaces).

RoHS

We confirm that the products we supply comply with EU Directives 2011/65 / EG / RoHS.

Conflict Minerals

We also confirm that the products we deliver do not contain any substances from the Democratic Republic of Congo (DRC) and neighboring countries.

Best Regards

Sassenscheidt & Co. GmbH

Ppa. Thomas Riske
